COMMANDANT'S GUIDANCE
DO NOT STAPLE THIS FORM

The completed fitness report is the most important information component in manpower management. It is the primary means of evaluating a Marine's performance and is the Commandant's primary tool for the selection of personnel for promotion, augmentation, retention, schooling, commens, and duty assignments. Therefore, the completion of this report is one of an officer's most critical responsibilities. In view of this duty, the commitment of each reporting Senior and Reporting Officer to ensure the integrity of the system by giving close attention to accurate marking and timely reporting. Every officer serves a role in the scrupulous maintenance of the evaluation system, ultimately important to both the individual and the Marine Corps. Inadequate markings only serve to obscure the actual value of each report. The reporting Officers will not concur with inflated reports.
